Example of a figure

Figure 1: LaTeX converts .eps files to .pdf, and the resolution is conserved

Transition using pause

In this slide

Transition using pause

In this slide the text will be partially visible

Transition using pause

In this slide the text will be partially visible And finally everything will be there

Highlighting

In this slide, some important text will be highlighted because it's important. Please, don't abuse it.

Remark

Those colors change with the theme

Important theorem

There are more types of blocks

Example

Sample text in green box. "Examples" is fixed as block title.

Two-column slide

This is a text in first column.

$$E = mc^2$$

- First item
- Second item

This text will be in the second column and on a second thought this is a nice looking layout in some cases.
